

K-2 SUMMER SCHOLARS

Read ~ Write ~ Math ~ Explore!

How to Participate

I would love to see you participate in academic studies at least three days out of the week. Students should do something in both reading and math each week, but being involved in learning is the most important part. Participation needs to be logged on a sheet and turned in during the first week of school.

Some suggestions:

I will send out a letter each week to give students ideas for activities and resources but you don't have to do just those activities. All academic activities are valued. The important thing is to **keep learning** even though you are away from us for awhile.

The reward....

There will be a fun celebration in the fall. Students who participate each week in reading and math will be invited to participate in the celebration. You don't want to miss it!

Let's Start With Reading!

Let's Read! Students in grades K-2 have RAZ kids accounts! That means that you can keep reading and taking quizzes throughout the summer. Let's see if you can read three books every week and pass the quiz for each book. I want to know about the stories that you read and how great you are doing!

www.raz-kids.com

If you have any problems logging in please let me know.

High Frequency Words

Let's make flash cards of all of the words and practice reading them. Can you copy them down? Can you spell them? Can you read them on your own? If you would like, send me a copy of your awesome work!

READING				SOME MATH ONLINE RESOURCES
Kindergarden words:	First Grade Words	Second Grade Words		Home Link Math books are available all summer long: www.mathmagician.com
no	all	than		www.eduplace.com
is	are	about		www.ixl.com
can	as	back		If you can't remember your password, let me know! I'll help you get it!
me	ball	after		
you	be	I'm		It is also fun to practice counting by numbers:
and	boy	been		*count by 1's (0,1,2,3...)
he	by	big		*count be 1's starting with another number (7,8,9...)
at	come	came		*count by 2's (0,2,4,6...)
a	day	away		*count by 2's starting with another number (7,9,11,13...)
so	did	your		*count backwards by 1 (10,9,8,...)
on				*count backwards by 2 (10, 8, 6,...)

LET'S WRITE:

Tell me a story.....I would love to hear from you. Write a story and send it to me. You can ask someone else to write down your words for you if you would like. Maybe you will be featured in our next edition of Summer Scholars!!! You can email your work or mail it to me at P.O. Box 667, Mount Desert, Maine 04660. I would love to see what you are working on! Be sure to add some pictures! Here are some story starters for you.

My teacher taught me how to.....

My favorite day of school this year was.....

When I go back to school I am going to show my friends that I learned to.....

This summer I want to learn how to.....
