What are you working on?

This is Maggie Leighton's work! Thank you Maggie for working so hard on your vocabulary!! What was your favorite word? I hope everyone is saving their awesome vocabulary work to share with Mrs. Leighton in the fall. She is going to be so excited!

Here are your new vocabulary words for this week:

amelioration	ostentatious
carping	precocious
desist	sanction
exorcism	lummox
impromptu	turpitude

Math Game....

Let's work on our ratios! All you have to do is observe and record! And of course send me some of your observations and data!

1. Pick something to observe that you can compare.
2. Use this format: ____ of the ____ are _____. Example: 10 of the 25 swimmers wore blue bathing suits.
3. Record your observations.
4. Turn your sentences into fractions! 8 of the 10 birds are crows = $8/10$!
5. Challenge step: reduce your fractions using prime factorization and cross canceling or dividing both numerator and denominator by their largest common factor.

The ratios are the comparisons that you make. It is easy to do and fun to challenge yourself to create many different comparisons. Just remember the target population is the numerator and the total population is the denominator.

Thank you, Alexis W, for sharing your story with me. Alexis is writing a story on google docs that has me wondering, "What will happen next?" We hope more kids will write some great stories this summer and remember to share your stories with me.

Tripping on all of the rotted out trees and being scared of every sound, there was a girl. Her name is Allyson swan, she is out in the woods in Austin Texas running away from her home giving her no choice but to leave her family.

Her mom (Julie Swan) her step dad (Thomas Snow) her two step sisters (Mariah Snow and Bella Snow) her dog (Otis) and her 14 year old step brother (Jarod Snow).

Allyson was supposed to be having her sweet sixteen party with all of her family and friends but according Alyson's family & friends are in dire jeopardy....

NEOMOTIIRAAL

A horizontal number line with vertical tick marks every 10 units, labeled 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. Below the line, a bracket spans from 0 to 11 and is labeled '11'. Another bracket spans from 11 to 100 and is labeled '5'.

GCNAIRP

SISTED

A number line with 6 equal segments. The first segment is labeled '2' and the last segment is labeled '15'.
