SUMMER SCHOLARS

Well, the end of the summer is near and we are all at school getting ready for you! I hope that the Summer Scholars program has been fun for you this vacation break. Be sure to bring in your logs for each week during the first week of school. You can bring it to my room, the office, or give it to your teacher to give to me. I will send out invitations to the Summer Scholars Party after the first week of school. If you think that you should have been invited and you don't get one, please call me! If you have participated each week this summer in some way, then you should expect an invitation. In the meantime, keep reading, writing and learning! See you soon, Mrs. Edgecomb

This is a Venn Diagram. Label is circle with one shape. Think about the characteristics of that shape. If both shapes share that characteristic, place it in the intersection. If only one shape has that characteristic place it in that circle but not where it is shared. If neither shape has that characteristic, where will you put it?
